## **A Message from the Principal**

Welcome parents and students to West Hoke Middle School. I believe that all children can learn, given the right educational setting and a compassionate and committed educator who recognizes the individual needs of children. As 21<sup>st</sup> century educators, preparing today's youth to live productive lives in an age of rapid technological growth, where the world is ever changing, the natural propensity to love and nurture other human beings will always be a major component in educating and inspiring young people to learn and grow. Always remembering that, as educators, we hold the keys to the future- a future of exploration and discovery in young minds waiting to be unlocked.

I believe that education is the key to success for staff and students and as an educational leader I am to motivate and inspire individuals to be everything they can be and to strive for constant success. I aspire to provide a safe, positive, and stimulating learning environment that encourages teachers and students to trust their own opinions and have confidence in what they believe. I believe everyone is different and that we need to embrace these differences to ensure they become life-long learners and the leaders of tomorrow.

Welcome to West Hoke Middle School, home of the Tigers!

Dr. Mary McLeod

Principal, West Hoke Middle School

*"Where excellence is standard"*
